

Alpha Series

U-Bolt Assembly

MATERIALS:

U-Bolt

Steel with electro-galvanized finish or 316 stainless.

Cushion

Thermoplastic elastomer.

Designed for the tough jobs, the **Alpha Series™** U-Bolt Assembly secures pipe runs to any flat surface. The cushion designed provides total load distribution, allowing the U-Bolt to become a full contact hanger, eliminating knife-edge loading. The U-Bolt traps and secures the cushion in place to prevent lateral movement, while nylon insert locknuts provide a positive lock. Available in electro-galvanized steel or 316 stainless steel.
