TORONTO, ON M8X 2X4

The design submission, tracking number 2015-00535, originally received on January 23, 2015 was surveyed and accepted for registration as follows:

CRN : 0A02205.52 **Accepted on:** February 02, 2015
Reg Type: Addition to Acc. Fitting **Expiry Date:** December 18, 2024
Drawing No. : CATALOGUE 4260 & 4280 As Noted
Fitting type: PIPING FITTINGS
Design registered in the name of : PARKER HANNIFIN

The registration is conditional on your compliance with the following notes:

This registration is valid only for fittings fabricated at the location(s) covered by the QC certificate attached to the accepted AB-41 Statutory Declaration form. This registration is valid only until the indicated expiry date only if the Manufacturer maintains a valid quality management system approved by an acceptable third-party agency until that date. Should the approval of the quality management system lapse before the expiry date indicated above, this registration shall become void.

This is CRN renewal . "This submission has been accepted for registration based review and acceptance of the design under CRN 0A2205.5 by another jurisdiction, in accordance with the Association of Chief Inspectors Policy on Reciprocal Recognition of Design Review for Fitting Design Registration."

An invoice covering survey and registration fees will be forwarded from our Revenue Accounts.

Enclosed are stamped prints for your reference.

Sincerely,

GRYNCHUK, MILLA

STATUTORY DECLARATION
Registration of Fittings

See Attached Examples of acceptable Product Marking
See attached

I, Tony Wyszowski,

General Manager

(company title, e.g. vice president, plant manager, chief engineer) (must be in a position of authority)

of Parker Hannifin Corporation, Instrumentation Proucts Division

(name of manufacturer)

located at 1005 A Cleaner Way, Huntsville, Al, with add'l manufacturing at 301 Wagner Dr, Boaz, AL

(plant address)

do solemnly declare that the fittings listed hereunder, which are subject to the Safety Codes Act (check one)

comply with the requirements of _____ which specifies the dimensions, (title of recognized North American Standard)

materials of construction, pressure/temperature ratings and identification marking of the fittings, or

are not covered by the provisions of a recognized North American standard and are therefore manufactured to comply with B31.1, B31.3 (see catalogs _____ as supported by the attached data which identifies the dimensions, materials of construction, pressure/temperature ratings and the basis for such ratings, and the marking of the fittings for identification.

I further declare that the manufacture of these fittings is controlled by a quality control program which has been verified by the following authority, Det Norske Veritas as being suitable for the manufacture of these fittings to the stated standard. The fittings covered by this declaration, for which I seek registration, are Inst Pipe, ISO and Welded Fittings

In support of this application, the following information, calculations and/or test data are attached:

Catalog 4260, Instrument Pipe & ISO Conversion Fittings, Dated May 2014 and Catalog 4280, Welded Fittings dated November 2011, ISO QA Certificate

DECLARED before me at Huntsville in the state of Alabama

this 20th day of November, 2014

GENERAL:

The following information is adapted from Parker's Corporation Communications and Identification Manual.

PRODUCT IDENTIFICATION:

It is important that Parker identification appear on the millions of components sold into the market place each year. For this reason, special versions of the Corporate Signature have been designed to accommodate difficult product marking situations. The three key variables which will govern the selection of proper identification techniques are the material on which the marking is to be applied, the surface contour, and identification area size. The order of preference for product marking usage is shown. When possible, the solid Signature should be used down to a minimum of 5/8 inch. For smaller applications, the solid Open Signature, with slightly more open space within the letterforms, should be used. The Linear Signature and the Helvetica Light Parker are approved only for especially difficult marking conditions and hard material surfaces. When the marking surface, contour or area size makes it impractical to use the complete Parker identification, a "P" may be used in order of preference shown. Critical dimensions for product identification only are provided in this section.

SCOPE OF REGISTRATION RENEWAL 0A2205.5

The scope of this registration renewal are the fittings listed in catalog 4260, Instrument Pipe & ISO Conversion Fittings, dated May 2014, and catalog 4280, Welded Fittings, dated November 2011. These are the same fittings and materials as were covered by the existing registration. The design of these fitting has not changed since the original registration. A change was made to the product listing in catalog 4280 since the last registration. The automated butt weld fitting product section of the catalog was eliminated as that product line was transferred to another division of Parker Hannifin.
