

## *Leader in Instrumentation & Electrical Supports*

### **Introducing TechLine Mfg. ModRack**

TechLine Mfg introduces an innovative new product that will save time during engineering and in the field. ModRack is perfect for permanent or temporary applications, providing fully adjustable crossbar receivers to accommodate a wide arrangement of electrical panels, analyzers, etc. in industrial settings.

**TechLine Mfg.'s ModRack** can accommodate a wide arrangement of electrical panels.

**Adjustable receivers** accommodate single strut, double strut, or 2" square tubing

- Reduce engineering time
- Reduce field fabrication
- Reduce field labor and cost
- Convenience of pre-fabbed racks
- Portable, adjustable configurations
- Single- or dual-sided
- No crane or heavy lifting equipment required
- Heavy-duty version available
- Variety of finishes available
- Optional roofs available

Call or visit our website today to find out how our ModRack can provide solutions for you in the field.

## Ordering Instructions

Using the information below, create the part number needed.

Example: TLMMR - S - 2 - GV - 0 - NR

### Basic Part -- Two 84" Stanchions

TechLine Medium Duty  
ModRack (TLMMR)

### Receiver Type

Single Strut (S)  
Double Strut (D)  
2" Square Tubing (T)

### Number of Receiver Sets\*

Each set accommodates 1 crossbar

### Material Finish

Aluminum (AL)  
Galvanized (GV)  
304 Stainless Steel (4SS)  
316 Stainless Steel (6SS)

### Cross Support Width\*\*

In inches, only if ordering cross supports.  
Otherwise, 0

### Roof Type

No Roof (Standard) (NR)  
Double (DR)  
Single-Sided (SR)

Contact us today to find out how ModRack  
can provide solutions for you in the field.

\*Order 1 set for each crossbar needed

\*\*Rack usable width
