The registration is conditional on your compliance with the following notes:

This registration has been issued based on the understanding that:

- The registration is valid for the following types of valves V-500, V-632 and V-910 made of A-479 316 or A-351 CF3M;
- The pressure ratings are as follows: 10,000 psi @ 100 F, 8,000 psi @ 450 F and 1,500 psi @ 1,000F. Other intermediate pressure ratings can be established based on the ambient pressure (10,000 psi @ 100 F) and the allowable stress at temperature for the material specification as per B31.1. The derating to be as per UG-101(k).

As indicated on AB-41 Statutory Declaration or AB-351 Declaration of Conformity form and submitted documentation, the code of construction is ASME B31.3.

- It is our understanding that the fitting(s), included as the scope of this submission, that is(are) subject to the Safety Codes Act shall comply with the requirements of the indicated Standard or Code of Construction on the AB-41 Statutory Declaration or AB-351 Declaration of Conformity as supported by the attached data which identifies the dimensions, materials of construction, press./temp. ratings and the basis for such ratings, and the identification marking of the fittings.
- This registration is valid only for fittings fabricated at the location(s) covered by the QC certificate attached to the accepted AB-41 Statutory Declaration or AB-351 Declaration of Conformity form.
- This registration is valid only until the indicated expiry date and only if the Manufacturer maintains a valid quality management system approved by an acceptable third-party agency, and maintains a valid Certification of Authorization Permit if required by the jurisdiction where manufacturing takes place, until that date.
- Should the approval of the quality management system lapse before the expiry date indicated above, this registration shall become void.

An invoice covering survey and registration fees will be forwarded from our Revenue Accounts.
